FUSING SHIZEN (自然): JAPANDI NATURE HARMONY

In our interior concept of 'Japandi Nature Harmony', we combine the serene natural beauty of the Japanese landscape with the essence of 'Shizen' — the fundamental balance of nature. By fusing Scandinavian minimalist design with traditional Japanese elements, our space creates a serene atmosphere where natural materials and elegant simplicity blend perfectly. Every detail, from clean lines to organic textures, reflects a deep appreciation for nature, offering a tranquil retreat that celebrates the timeless appeal of the Japandi style.

SIDE TABLE

LA BORSA

la borsa in Italian which means a bag/pocket is a table model with a pocket on one side that has actually been around since ancient times, for people to put newspapers, magazines, etc. However, I developed it into a more modern and smaller bedside table form so that it can be placed anywhere.
